

STATE of CALIFORNIA

Wireless E9-1-1 Project Status (March 2006)

The following summary information is extracted from the monthly Wireless E9-1-1 (W E9-1-1) Project meeting minutes. The State hosts an open meeting on the second Friday of each month at the Telecommunications Division in Sacramento for the Wireless Service Providers (WSPs), Incumbent Local Exchange Carriers (ILECs), Public Safety Answer Points (PSAPs), California Highway Patrol (CHP), Database Providers, and other stakeholders to encourage active participation with the project goals. Contact Bill Harry (9-1-1 Office) at 916-657-9236 or william.harry@dgs.ca.gov for further information.

W E9-1-1 Project General Business

- **Increasing Wireless E9-1-1 Volume.** Steady progress continues moving the wireless calls from Phase 0 to Phase I/II. There is a slight increase in the number of calls flowing through AT&T and Verizon facilities. Verizon processed in excess of 25,500 calls during March through their S/Rs. During March 2006, AT&T processed 535,463 through their tandems, a slight increase over February's totals, however an increase of over 139,700 calls which were processed during March of 2005. CHP PSAPs accounted for 79% of the calls through the AT&T S/Rs, with more than 113,870 routed directly to local PSAPs. For specific deployment information please see the cut sheets posted on-line at www.td.dgs.ca.gov/Services/911/we911.
- **New PSAP Deployments.** Congratulations to the following 14 PSAPs for initiating their first deployments during March 2006: CHP Indio, Huntington Park PD, Santa Barbara Sheriff, CHP Monterey, Port Hueneme PD, Oxnard PD/FD, Riverside PD, Beaumont PD, CHP San Luis Obispo, Rialto PD, Los Gatos PD, Santa Maria PD, Lompoc PD, and Monterey County Communications. As of March 31, 2006 there were 139 PSAPs receiving PH II Wireless E9-1-1 calls.
- **Deployment Completions.** Congratulations to all the PSAPs, and their respective WRCs, who have completed their initial deployment with all carriers. During March the following PSAPs completed their deployment of W E911: Sunnyvale PD, Covina PD, Baldwin Park PD, Glendora PD, San Jose PD, and Irwindale PD. There are now 18 PSAPs that have completed their deployment of with all WSPs.
- **Wireless Regional Coordinator (WRC) Update.**
WRC information is available at <http://www.documents.dgs.ca.gov/td/911/WE911RegionalCoordinators.pdf>.

Regional Implementations, as of March 30, 2006 – See cut sheets at <http://www.td.dgs.ca.gov/Services/911/we911> under “Implementation Status.”

- **Los Angeles Region** – The LA Region is 83.01% complete with all WSPs deployed. Emphasis has been on Nextel completion and deploying the LAPD Divisions. 7 PSAPs have completed deployment with all WSPs.
- **San Francisco Bay Area Region** – The SF Bay Region 86.55% complete with all WSPs deployed. Emphasis has been on completing Nextel deployment to local PSAPs. 10 PSAPs have completed deployment with all WSPs.
- **San Diego Region** – The SD Region is 86.65% complete. 1 PSAP has completed deployment with all WSPs.
- **Sacramento Region** – The Sacramento Region is 24.68% complete, with 5 of 9 WSPs deployed.
- **Southland Region** – The Southland Region is 39.69% complete. During March there were deployments by 4 WSPs in Southland Region counties.
- **Central Region** – The Central Region is 7.12% complete. Monterey County had its first deployments in March with Verizon Wireless, the only WSP currently providing W E911 in the region.
- **Northern Region** – The Northern Region WRC and CHP met to determine sector routing for the Northern Region PSAPs. The State continues to discuss options with Frontier to upgrade E9-1-1 service in Modoc and Lassen counties for both wireline and wireless callers. PSAP meetings to discuss the W E911 project are scheduled for April 24 at SHASCOM and April 25 at Chico PD.
